Ph: +91-9640058234 Email: mahidarreddy.2005@gmail.com **LinkedIn:** mahidharreddy **GitHub:** mahidar22
Loc:* Guntur East, Andhra Pradesh, India

PROFESSIONAL SUMMARY

Results-driven Frontend Developer with hands-on experience building responsive, high-performance web applications using React.js, Next.js, and modern JavaScript. Combines strong UI engineering skills with a unique edge in integrating AI/LLM capabilities into frontend products. Passionate about crafting intuitive user experiences backed by clean, scalable code.

EDUCATION

Narasaraopeta Engineering College Guntur, Andhra Pradesh
Bachelor of Technology in Artificial Intelligence | CGPA: 7.50/10.0 July 2024 – June 2027
– Relevant Coursework: Data Structures & Algorithms, Web Technologies, Database Management Systems, Machine Learning, NLP

TECHNICAL SKILLS

Frontend Core: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Redux, D3.js
Styling & UI: Tailwind CSS, Material UI, Responsive Design
Backend & APIs: Node.js, Express.js, RESTful APIs, GraphQL, FastAPI, Socket.io
Databases: MongoDB, PostgreSQL, MySQL, Firebase, Redis
AI Integration: OpenAI API, Gemini API, LangChain, Prompt Engineering, RAG Systems
DevOps & Cloud: Git, GitHub Actions, Docker, AWS (EC2, S3), Google Cloud Platform, CI/CD
Tools: VS Code, Postman, Figma, HuggingFace Spaces, Gradio

PROJECTS

- Full Stack E-Commerce Platform** | *React.js, Redux, Node.js, MongoDB, Stripe, AWS* 2024
* Built a production-grade e-commerce platform with React & Redux frontend serving **300+ daily active users**, featuring dynamic product catalog, cart management, and order tracking.
* Designed responsive UI with component-level code-splitting, reducing initial load time by **35%** and improving Lighthouse performance scores.
* Integrated Stripe API for secure checkout flows with real-time payment status updates via webhooks.
* Implemented JWT-based authentication, role-based access control (admin/user), and protected routes in React Router.
* Deployed on AWS (S3 for static assets, EC2 for backend) with automated CI/CD pipelines via GitHub Actions.
- Sentiment Analysis Dashboard** | *React.js, D3.js, Flask, BERT, Python* 2024
* Developed an interactive analytics dashboard in React with real-time sentiment trend visualizations using D3.js charts and graphs.
* Built reusable chart components (line, bar, heatmap) that dynamically update as the Flask backend processes **50K+ social media posts**.
* Achieved **89% F1-score** in multi-class sentiment classification by integrating a fine-tuned BERT model via REST API calls from the frontend.
* Implemented WebSocket support for live data streaming and frontend state management with React hooks.
- Generative AI Chatbot Interface** | *React.js, FastAPI, LangChain, OpenAI API, Pinecone* 2024
* Designed and built a polished chat UI in React with streaming message display, conversation history, and markdown rendering for AI responses.
* Integrated RAG (Retrieval-Augmented Generation) backend via FastAPI, achieving **92% answer accuracy** across 1000+ documents.
* Engineered frontend to handle **500+ concurrent users** with async API calls, loading skeletons, and error boundary components.
* Implemented responsive design and keyboard accessibility for seamless cross-device usage.
- AI Image Generation Platform** | *Gradio, Python, Stable Diffusion, PyTorch, HuggingFace* 2024
* Created an interactive web UI with Gradio for real-time prompt testing, style selection, and parameter tuning for AI-generated images.
* Fine-tuned Stable Diffusion models with LoRA adapters on **5000+ images**, improving output quality by **40%** for targeted visual styles.
* Deployed publicly on HuggingFace Spaces, enabling direct user access with zero infrastructure overhead.

CERTIFICATIONS & ACHIEVEMENTS

Introduction to Generative AI – Google Cloud

Introduction to Large Language Models – Google Cloud

Advanced Prompt Engineering & LLM Application Development

AI Tools Workshop – 2x Certified

GitHub Portfolio – 15+ projects showcasing frontend and AI development skills

Technical Leadership – Led student coding workshops on React, AI integration, and modern web development
